

The new workplace practices.

Soft-Power

Powered by  MEDAID

PRODUCT

The new workplace practices.

Introducing a new standard for all workplaces. Muscle Suit Soft-Power, built upon the assistance technology developed in the Muscle Suit series, combines support and comfort to achieve a garment-like wearing experience. It provides assistance throughout the day, making strenuous tasks feel light and effortless.

SCENE

Effortlessly perform all tasks with a garment-like level of comfort.

Lifting and carrying tasks in manufacturing and logistics warehouses.

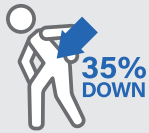

Maintaining challenging positions in the caregiving field.

Forward leaning posture in agricultural work.

FEATURE

35% reduction in lower back strain.

Supple yet firm support.

Vehicle operation is okay.

The support can be turned on or off with the shoulder buckle. When the support is off, vehicle operation is also allowed.

NOT HOT, no sweating.

Since it is worn on the back and secured with a belt below the knees, the contact area of the fabric with the body is minimal.

Easy to move in.

Ideal for tasks involving frequent movement such as walking and squatting.

Light Weight.

Body weight:430g.
